

## Retail

## High Street Refit (Multi-Site)

The Body Shop, a global retailer of naturally inspired products commenced a nationwide refurbishment programme 'Shop Me' in 2005 and Bridgfords secured one third of the projects. Stores were typically closed for 10 days whilst new ceiling, walls, lighting, data and merchandise systems were introduced.

### Summary of Sector

- Working across a number of sites simultaneously is required for both refurbishment schemes and roll out of new initiatives.
- Works are generally undertaken in trading stores, overnight or in closed periods. Whichever method is used, works are required to be properly planned to mitigate disruption to trade.
- Fast Track programmes allow the Retailer to retain a consistent brand image across the portfolio.
- Adopting the retailers brand values is of paramount importance - protection of the environment, communities, human rights and our planet.
